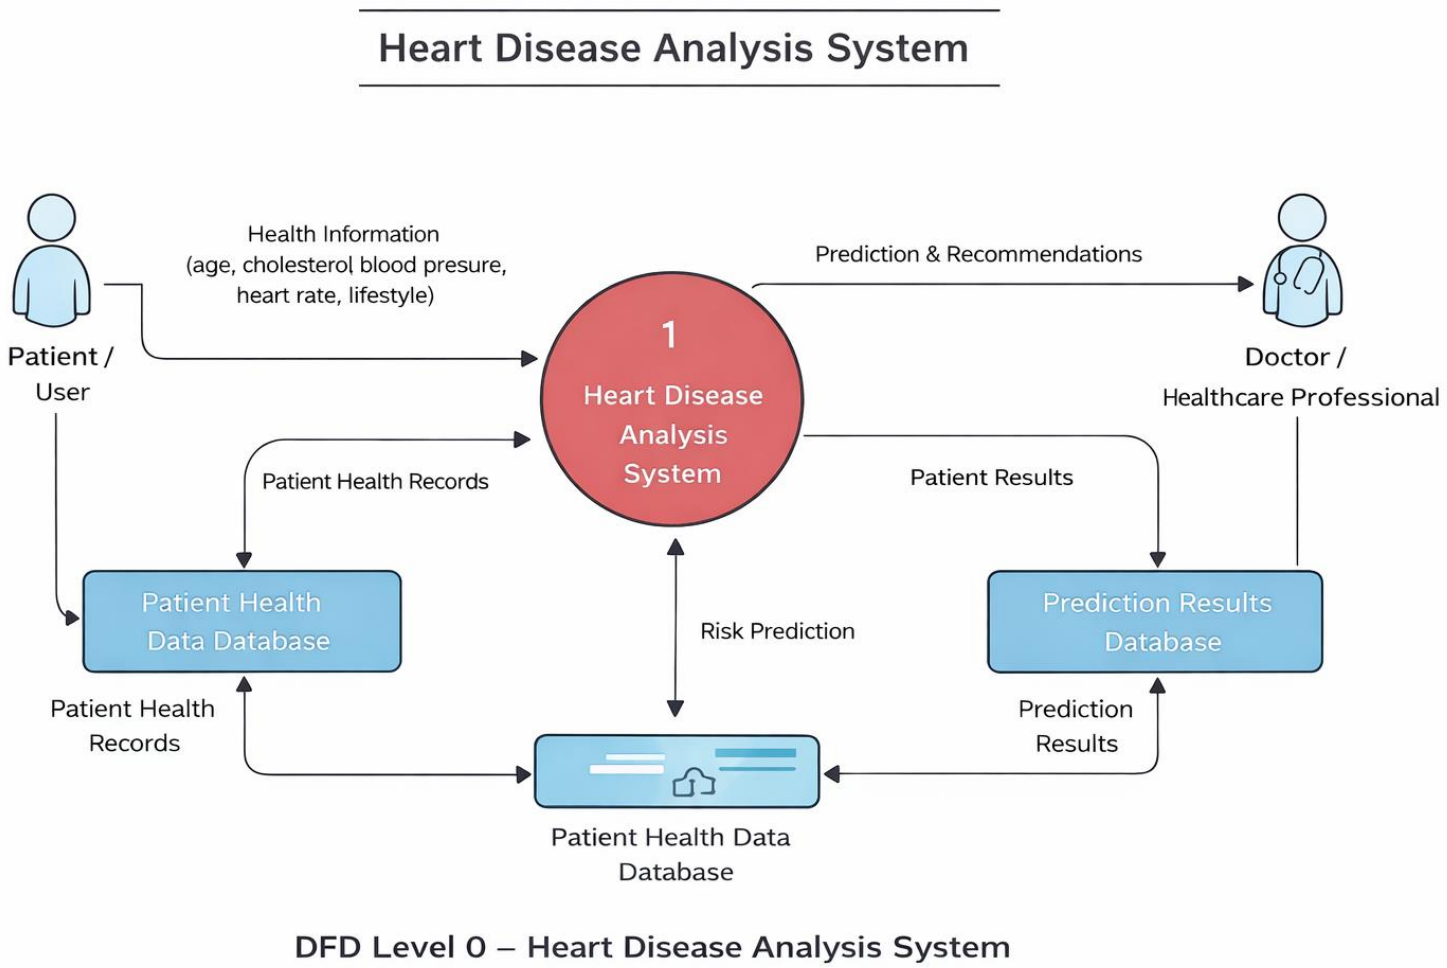
Project Design Phase-II
Data Flow Diagram & User Stories

Date	06-03-2026
Team ID	Bhaktesh
Project Name	Heart Disease Analysis
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Fig 1 Level 0 DFD Diagram



User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Patient / User	Registration	USN-1	As a user, I can register on the platform by entering my personal and health details.	User account is successfully created and accessible.	High	Sprint-1
Patient / User	Login	USN-2	As a user, I can log into the system using my registered credentials.	User can securely access their dashboard.	High	Sprint-1
Patient / User	Health Data Entry	USN-3	As a user, I can enter my medical parameters such as age, blood pressure, cholesterol, and heart rate.	System successfully stores the health data.	High	Sprint-1

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Patient / User	Heart Disease Prediction	USN-4	As a user, I can analyze my health data to check the risk of heart disease.	System generates a prediction result with risk level.	High	Sprint-2
Patient / User	Dashboard	USN-5	As a user, I can view my health reports and prediction results on a dashboard.	Dashboard displays charts and prediction outcomes.	Medium	Sprint-2
Doctor / Healthcare Professional	Data Review	USN-6	As a doctor, I can review patient health data and prediction results.	Doctor can access patient reports and analysis.	Medium	Sprint-2
Administrator	Data Management	USN-7	As an admin, I can manage patient records and system data.	Admin can update or delete records if necessary.	Low	Sprint-3
Administrator	System Monitoring	USN-8	As an admin, I can monitor system performance and data flow.	System logs and monitoring tools are available.	Low	Sprint-3
